

# IFC-IIBF online certification on **CLIMATE RISK AND SUSTAINABLE FINANCE**

[Sign up for Module 3 and 4 now](#)

## **E-learning and Certification Program on 'Climate Risk and Sustainable Finance' - Foundation and Advance Courses**

### **ABOUT THE COURSE**

Climate finance is crucial for facilitating the shift to a low-carbon and climate-resilient economy. This course has been designed to equip individuals with the fundamental knowledge of climate finance and its importance in the financial services industry.

Financial institutions can aid in the reduction of greenhouse gas emissions and in climate change mitigation by supporting investments in sustainable infrastructure, energy efficiency, renewable energy, and other climate-friendly technologies and practices.

In this course, you will learn how to incorporate climate considerations, including opportunities and risks, into strategies and decision-making processes of financial institutions, to promote sustainable growth.

*Developed by leading institutions in climate finance for  
banking and finance professionals in India*
