RBI tells NBFCs to appoint CRO

In view of the increasing role of NBFCs in direct credit intermediation, RBI has asked NBFCs with asset size of more than ₹5,000 crore to appoint a chief risk officer (CRO) with clearly specified roles and responsibilities. Emphasizing the need for NBFCs to augment risk-management practices, the RBI wants the CRO to function independently to ensure highest standards of risk management.

To that end, the CRO should possess adequate professional qualification/experience in risk management. The CRO can be appointed for a fixed tenure with the approval of the board. The officer can be transferred/removed from the post prematurely only with the approval of the board. Such premature transfer/removal should be reported to the Department of Non-Banking Supervision of the RBI's regional office, under whose jurisdiction the NBFCs is listed. Any change in incumbency of the CRO should also be reported to the stock exchanges.

NBFCs should institute policies to safeguard the independence of the CRO. In this regard, the CRO should have direct reporting lines to the MD and CEO/ Risk Management Committee (RMC) or the board. In case the CRO reports to the MD and CEO, the RMC/board should meet the CRO without the MD and CEO, at least on a quarterly basis. The CRO should not have any reporting relationship with the business verticals of the NBFC, and should not be given any business targets. He/she should also not be given any other responsibility. The CRO will be involved in the process of identification, measurement and mitigation of risks. All credit products (retail or wholesale) will be vetted by the CRO from the angle of inherent and control risks. The CRO's role in deciding credit proposals will be limited to being an advisor.

RBI extends RTGS transfer timings

RBI has increased the Real Time Gross Settlement (RTGS) time window for customer transactions (initial cut-off) from 4.30 pm to 6.00 pm. The RTGS system is primarily meant for large-value transactions. The minimum amount to be remitted through RTGS is Rs. 2 lakh with no upper or maximum ceiling.

RBI institutes task force on market for corporate loans

The RBI has instituted a task force on the development of secondary market for corporate loans, to increase the efficiency of debt market in general and to aid the resolution of stressed assets in particular. A well-developed secondary market for debt will also help in transparent price discovery of the inherent riskiness of the debt being traded. The task force will have to suggest required policies for facilitating development of secondary market in corporate loans viz. loan transaction platform for stressed assets, creating a loan contract registry, its ownership structure and related protocols such as standardization of loan information, independent validation and data access. The task force would design the market structure for loan sales/auctions, including online platforms and the related trading and transaction reporting infrastructure.

RBI forms committee to take stock of mortgage securitization

In order to boost the housing finance securitization market in India, the RBI has formed a committee to review the existing state of mortgage securitization and suggest ways to develop the market. The Committee will examine the existing structure for mortgage-backed securitization transactions, including legal, tax, valuation and accounting-related issues. It will suggest necessary modifications to address the requirements of originators.
and investors. It will also suggest measures for facilitating secondary market trading in mortgage securitization instruments, such as, broadening investor base and strengthening market infrastructure. The committee has been tasked to analyze the inter-linkages between securitization and other related financial market instruments and suggest policy interventions to leverage these inter-linkages. The committee will also evaluate the role of various counterparties, including the servicers, trustees, rating agencies in the securitization process and suggest measures to address the key structural, fiduciary and servicer risks.

**NHB directs bigger housing finance firms to appoint CRO**

HFCs with asset size of more than ₹5000 crore shall appoint a CRO with clearly specified role and responsibilities. In order to ensure highest standards of risk management, the board of HFCs shall institute due policies to safeguard the independence of the CRO, who shall report directly to the Managing Director and Chief Executive Officer.

**SEBI opens doors to MFs in commodity derivatives market**

In a step that could significantly deepen the commodity derivatives segment (CDS), SEBI has issued norms for participation of mutual funds in commodity derivatives like gold, silver, crude, copper, guar, menthe etc. However, MFs won't be allowed to take positions in sensitive commodities like agri products subject to frequent government intervention and the Essential Commodities Act. Effective May 21, MFs can participate in gold derivatives only through gold exchange traded funds launched by AMCs and in other commodity derivatives through hybrid schemes, which currently invest in equity, debt and gold.

**RBI tweaks KYC norms for regulated entities**

The RBI has made some important changes in its master direction on Know-Your-Customer (KYC) norms for regulated entities (REs). Accordingly, banks can now carry out Aadhaar authentication/offline verification of an individual who voluntarily uses ones Aadhaar number for identification purpose. Further, ‘proof of possession of Aadhaar number’ will also be added to the list of Officially Valid Documents (OVD). For customer identification of individuals desirous of receiving any benefit or subsidy under any scheme notified under Section 7 of the Aadhaar (Targeted Delivery of Financial and Other Subsidies, Benefits and Services) Act, 2016, the bank will have to obtain a certified copy of any OVD, containing details of his/her identity and address along with one recent photograph.
