One-day Online Workshop for Bankers on **“Cyber Security & Forensics - Track, Trace, Secure”**

BACKGROUND

During its 97 years of functioning, IIBF has emerged as a premier Institute in banking and finance education for professional bankers and aspiring candidates choosing banking as career. Considering the emerging requirements of the bankers in the ever-changing dynamic environment, IIBF started conducting training programmes for bankers in select areas. IIBF has setup world class training facilities at its Leadership centre in Mumbai for physical as well as virtual trainings. It also has four Professional Development Centres (PDCs) at Delhi, Chennai, Mumbai & Kolkata with residential facilities at Delhi to accommodate more than 50 participants at a time.

In the wake of rapid digitization in banking, institutions face an ever-growing range of cyber threats. From phishing and ransomware to insider attacks and data breaches, the security landscape has become complex. This one-day virtual workshop is designed to equip banking professionals with practical insights into Cyber Security, Digital Forensics, and OSINT (Open Source Intelligence) to safeguard systems, trace incidents, and respond effectively.

PURPOSE

This programme aims to build a proactive mindset and operational readiness in tracking digital footprints, using OSINT tools, strengthening security postures, and managing cyber incidents. Participants will gain an actionable understanding of forensic methods and preventive frameworks.

OBJECTIVES

The programme focusses on the following aspects:

- Enhancing understanding of modern cyber threats in banking
- Introducing OSINT tools for tracking digital trails
- Strengthening response capabilities through simulated scenarios
- Promote employee cyber hygiene and customer awareness strategies

CONTENT OVERVIEW

- Current Cyber Threat Landscape in Banking
- Digital Forensics Essentials: Log Analysis, Evidence Handling
- OSINT Techniques: Maltego, Shodan, Google Dorks & more
- Incident Response Framework & Crisis Management
- Insider Threats & Social Engineering
- Secure Infrastructure & Employee Awareness

METHODOLOGY

The workshop will be delivered in virtual mode using presentations, live tool demos (OSINT & forensics), case-based discussions, roleplays, and gamified quizzes. Sessions will be interactive and conducted by industry experts. Certificate will be issued after successful participation and MCQ-based online evaluation.
