About IIBF

During its 96 years of service, IIBF has emerged as a premier institute in banking and financial education. Considering the emerging requirements of bankers in the ever-changing dynamic environment, IIBF has started providing training programmes for bankers in all areas of banking. IIBF has world-class training facilities at its Leadership Development (LDC) Centre, Mumbai along with four Professional Development Centres (PDCs)-Delhi, Mumbai, Kolkata & Chennai. These are the extended arms of IIBF, LDC, Mumbai. The mission of IIBF is always to provide high-standard training inputs & knowledge along with Capacity Building for all the participants coming for different trainings either Online or Offline mode. In addition to its basket of existing programmes, IIBF offers you the Special Two-day Programme on Financial & Technical Analysis which traverses much beyond mere theoretical knowledge towards practical knowledge & aspects related to understanding different charts for understanding the markets in the present volatile environment. It equips you to approach your workplace more confidently by adding the necessary skills. The present Programme has been designed especially considering the training needs of all forex & treasury officers and those who are working in areas where understanding of the market is inevitable.

Programme Description

- ❖ The following concepts and frameworks pertaining to market understanding will be covered over 2 days
- Understanding of Investments
- Overview of the Equity Market, its efficiency, valuation & their models
- Understanding about Index & their types
- Equity Derivative Market-Deep understanding of Future & Options
- Clearing, settlement & Risk Management
- Legal & Regulatory Framework

Objective:

- Designed for Bank's Treasury staff, and corporate risk managers for forming market views for better and informed risk management & hedging.
- Focuses on balanced learning of technical conventional tools like Trend line, RSI, MACD, etc., combined with Japanese Candlestick and Elliot wave theories, which together help form views on financial market instruments with higher conviction.
- Fault points to be avoided
- Improve quality of fundamental & technical research and outcomes

Pedagogy:

- Online live lectures will be taken by Industry experts & IIBF faculty members.
- Live-In-depth analysis of different Charts.

Target Audience:

- Officials from Domestic and Forex Treasury
- Risk Management officers handling Market risk
- Corporate treasurers and risk managers in Banks

Method & Process:

Participants are requested to enrol for the Programme through On-Line Enrolment form / QR code, enclosed herewith. Online sessions will be conducted through the Learning Management System & will be provided with login id and password to enter into the learning platform of the institute. Guidance will be provided for navigating through the various activities in the platform such as accessing courseware, viewing video sessions, participating in live sessions, etc.

Live session schedule will be provided at the start of the Programme. Participants attending the Programme would need internet access on a desktop or laptop with Google Chrome to enable access to live and recorded sessions (for limited period).

Participation Certificate

A completion certificate will be given to the participant through e-mail / post within 7 days after the end of the Programme. Participant has to remain logged in for at least the total number of engagement hours within the duration of the workshop to be considered to have completed the same along with an entry & exit level on line test.
