## **Training Programme on “Preventive Vigilance & Fraud Management”**

### **BACKGROUND**

During its 96 years of service, IIBF has emerged as a premier institute in the banking industry. Considering the emerging requirements of the bankers in the dynamic environment, IIBF has been offering certification courses and training programmes to the banking professionals.

The training programmes are designed in consultation with the industry experts and human resources personnel with an endeavour to address the skill gaps on a continuous basis. The regular offerings in varied areas prepare the banking professionals ahead of the impending change.

IIBF offers virtual training programmes for its Blended Certification courses and many other programmes to facilitate learning across the country.

IIBF also has state-of-the-art training facilities at its Leadership Centre at Mumbai. The four Professional Development Centres (PDCs) at Delhi, Chennai, Kolkata & Mumbai cater to the increasing demand for the focused training programmes.

### **PURPOSE**

Though, the banking industry in India is well regulated and supervised, in recent years, several instances of financial frauds across the industry have frequently been reported. During post liberalization period, more specifically in the last decade, the frequency, complexity and cost of banking frauds have increased manifold resulting in a very serious concern for regulators.

The high numbers and severity of frauds not only affects the profitability of the banks, but also shatters the confidence of all stakeholders. A large number of banking frauds have also led to an increase in the NPAs and resultant provision requirements of the banks. The need of the hour for all banks and Financial Institutions is to take timely steps to identify the wrongful activity in an account by catching Early Warning Signals and report the same for necessary action and control in line with RBI Master Direction on Frauds.

The ship is very safe at the harbor but it is not meant for that. It has to go on voyage and encounter risks. Similarly banking is a risk taking business. The economic cost of frauds can be huge in terms of likely disruption in the working of the markets, financial institutions, and the payment system. Besides, frauds can have a potentially debilitating effect on confidence in the banking system and may damage the integrity and stability of the economy. It can bring down banks, undermine the central bank’s supervisory role and even create social unrest, discontent and political upheavals.

The vulnerability of banks to fraud has been heightened by technological advancements in recent times.

Therefore, it is necessary, that a strong foundation is built for exercising Preventive Vigilance by leveraging robust IT systems, framing effective policies and procedures, laying down strict compliance processes, setting high integrity standards, developing efficient monitoring capabilities and initiating strict punitive action against the culprits in a time bound manner. It is also imperative that we insulate ourselves from unscrupulous activities by strengthening the fraud detection, mitigation and control mechanism through prompt identification, investigation and exchange of information.

## **OBJECTIVES**

Given this background, IIBF has designed this special programme to -

1. Sensitize the participants to the broad contours of Fraud Risk Management Framework with special focus on prevention, detection and reporting of frauds, and
2. Highlight the critical role of vigilance in ensuring good governance standards in the Banks/ financial sector and the need to strengthen preventive vigilance framework to increase efficiency.
3. Supplement efforts of the Bank in carrying out simultaneous internal checks.

## **CONTENT OVERVIEW**

- An overview of Fraud Risk Management Framework, FRM Policy, Organizational Structure, Internal & External Frauds etc.
