

How to Verify the Digital Signature of an e-Certificate Issued by IIBF

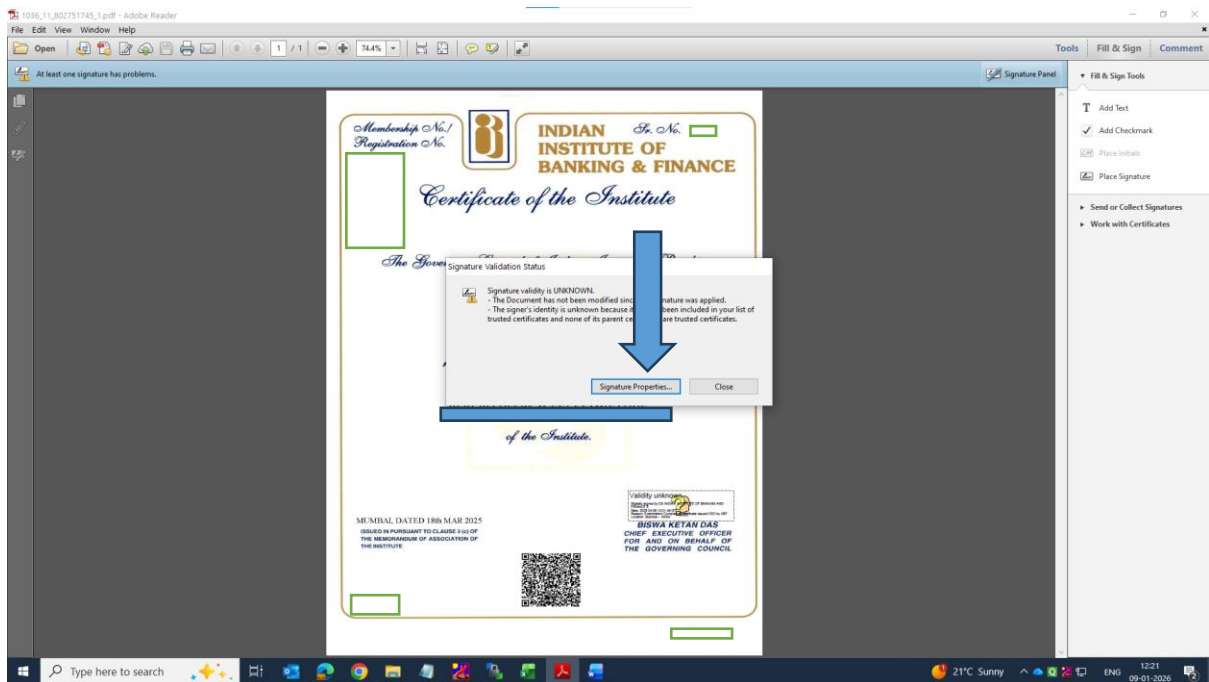

Step 1: Open the e-certificate pdf in adobe reader (preferably Adobe reader XI and above)

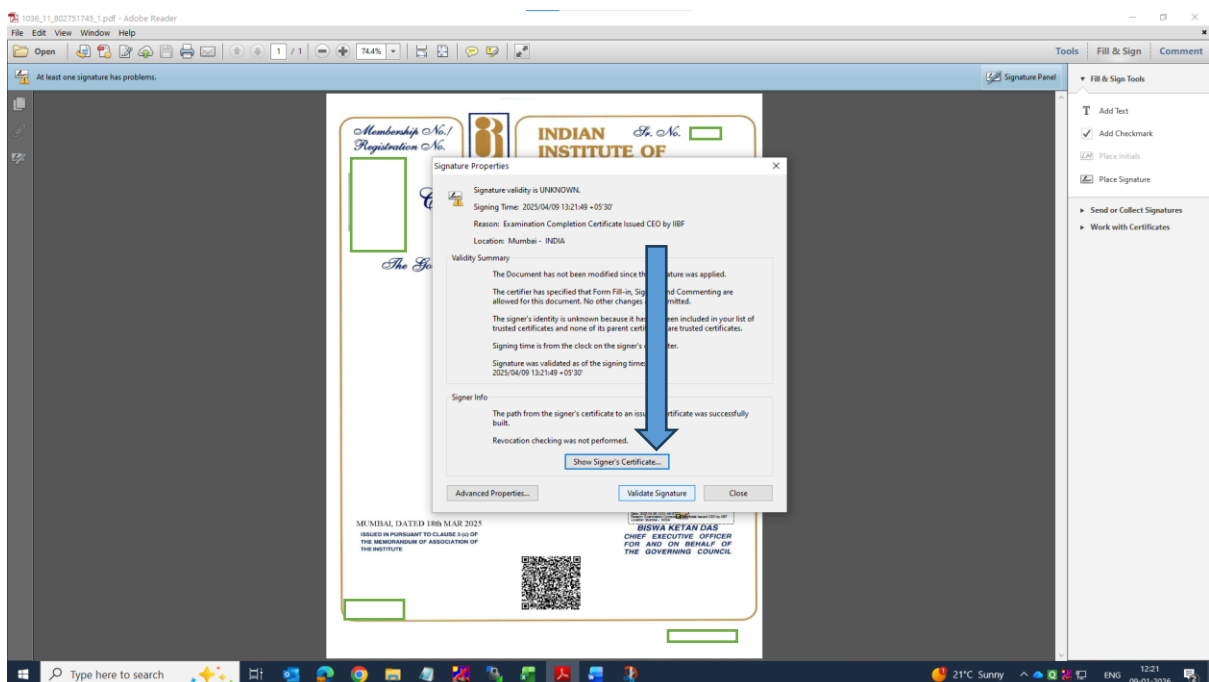

Step 2: Right Click on the 'Signature Question Mark' symbol

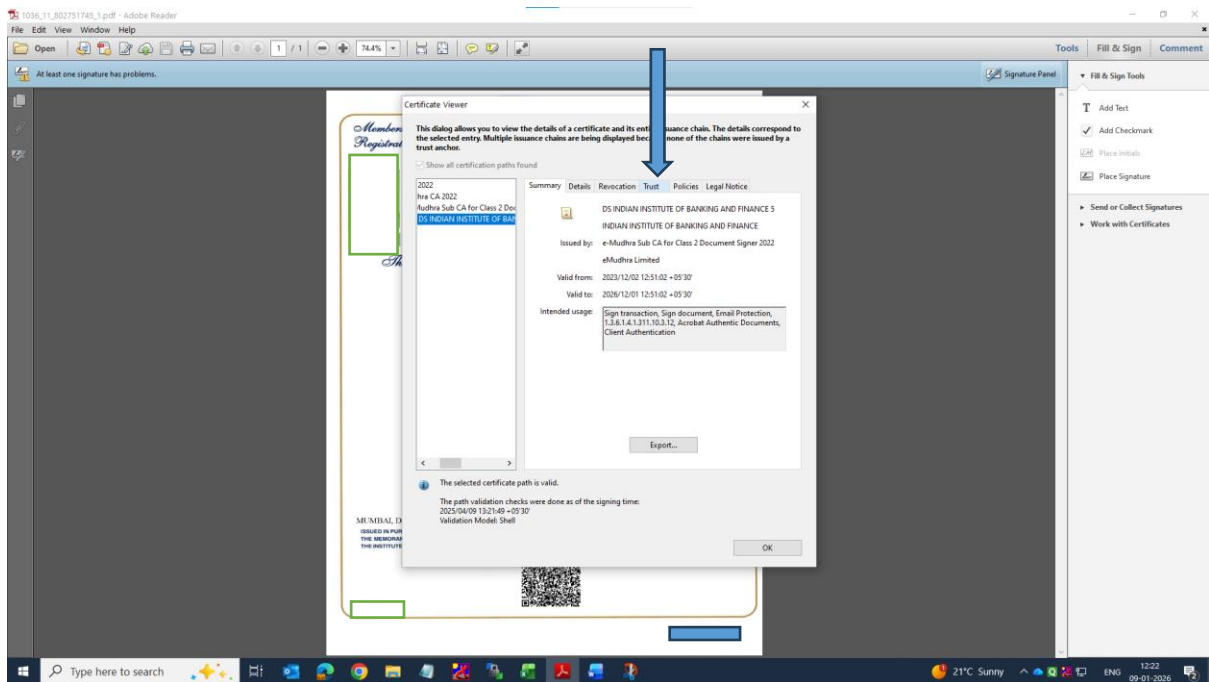

Step 3: A dialog box will appear as below. Click on Signature Properties

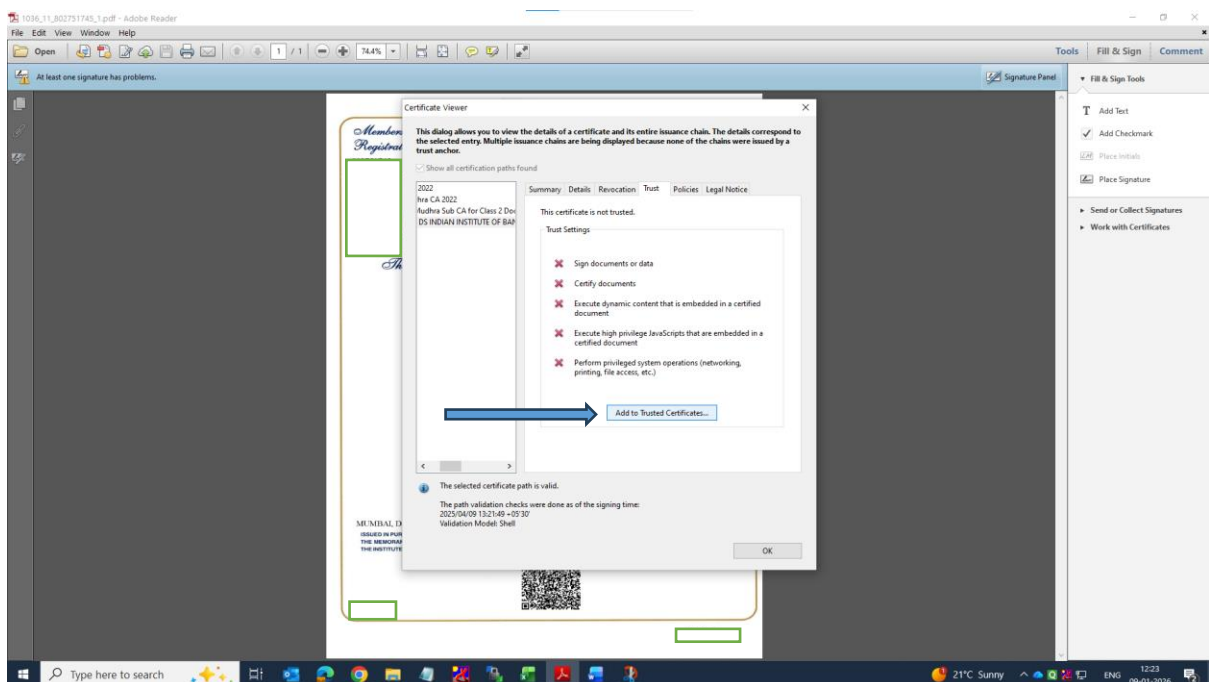

Step 4: In the following dialog box, click on 'Show Signer's Certificate'

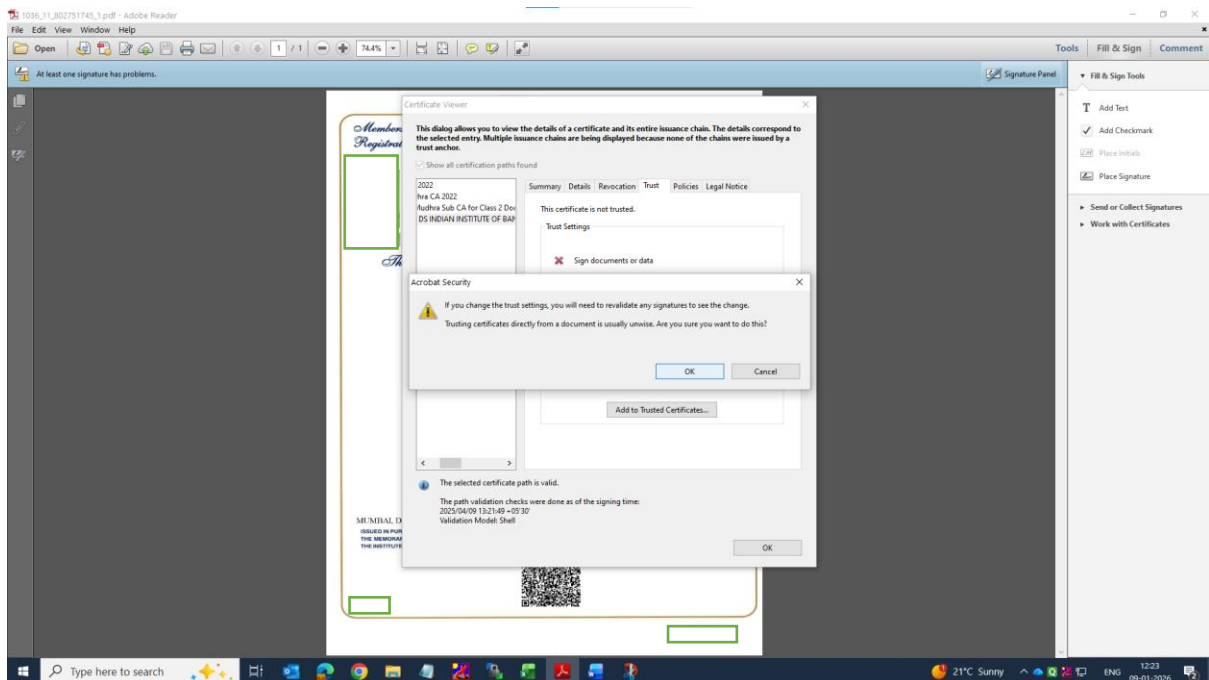

Step 5: In the next dialog box, click on the ‘Trust’ Tab

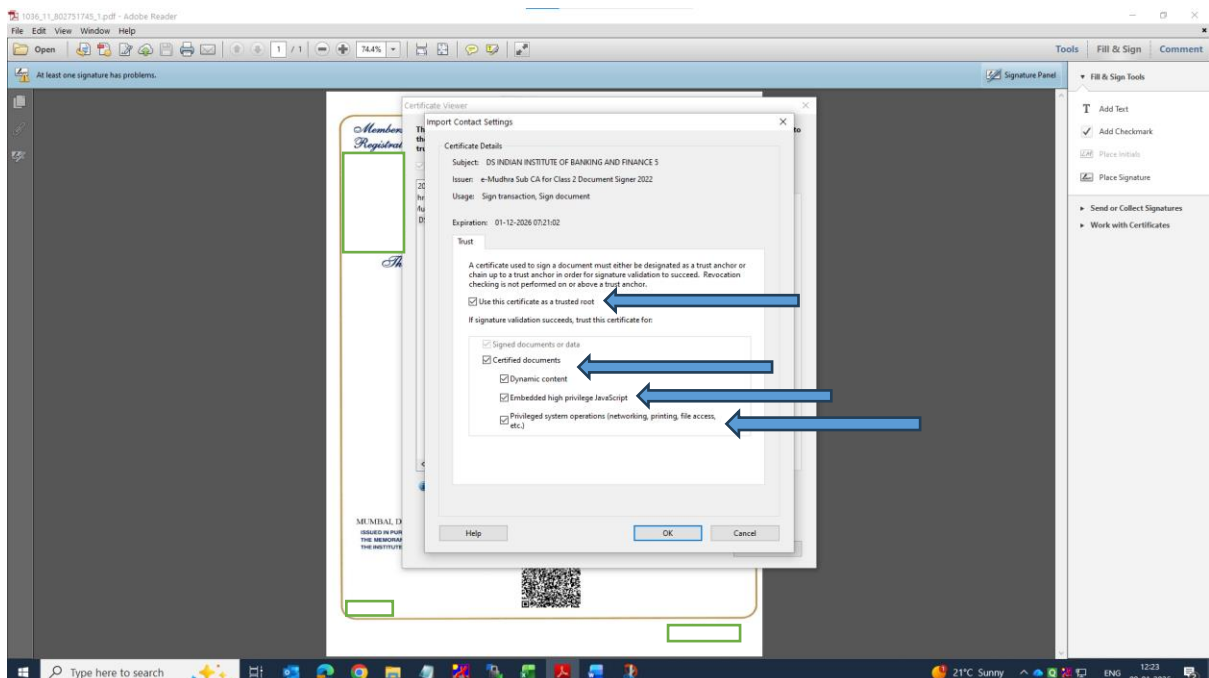

Step 6: Under the ‘Trust’ tab, click on the option ‘Add to Trusted Certificates’

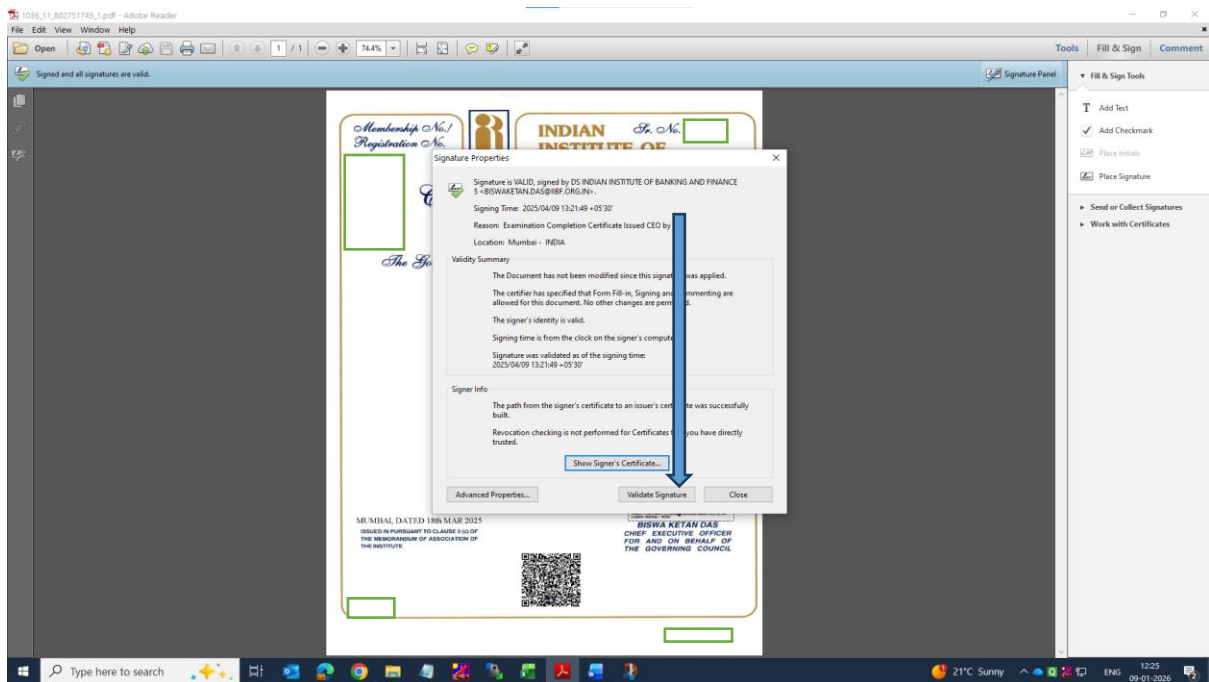

Step 7: A dialog box may pop up as given below, click on 'ok'

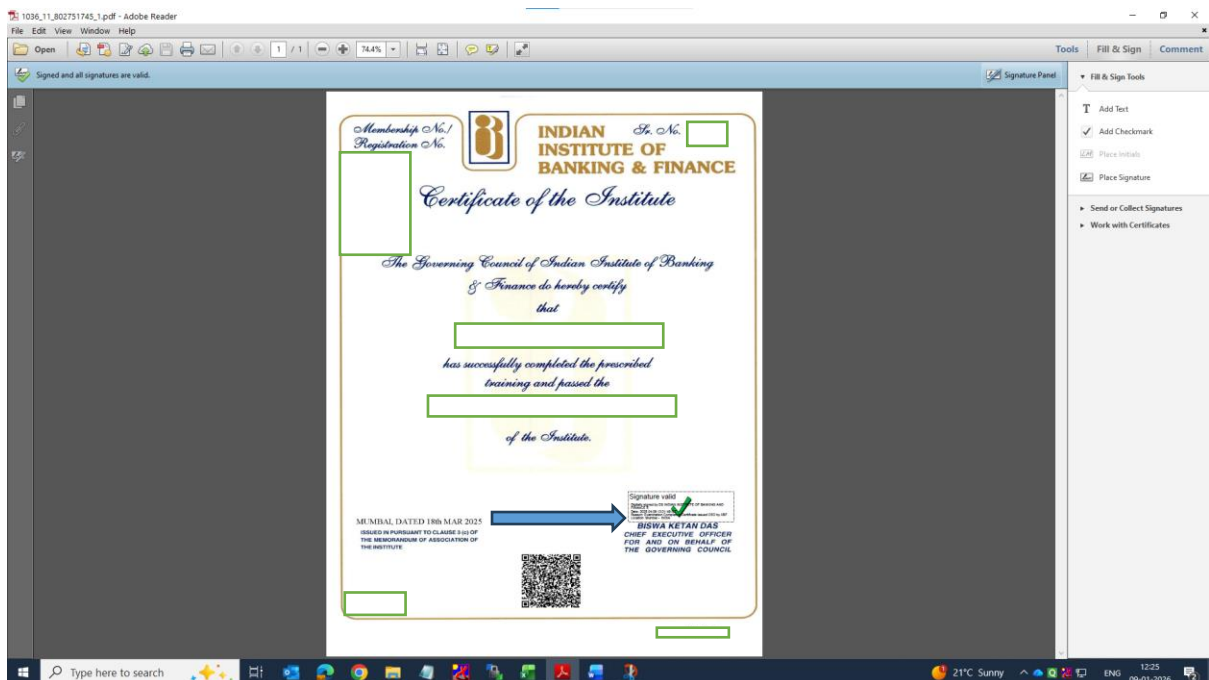

Step 8: In the next dialog box shown below, tick the highlighted boxes and click on 'ok'

Step 9: In the next dialog box, click on the option 'validate signature'

Output: The question mark symbol would change to a green tick symbol as shown below.

The e-certificate is now digitally verified.
