BACKGROUND OF THE PROGRAMME: Know Your Customer is the process of verifying the identity of customer. The objective of KYC guidelines is to prevent banks from being used, by criminal elements for money laundering activities. It also enables banks to understand customers and their financial dealings to serve them better and manage risks prudently. Though anti-money laundering laws cover a limited range of transactions and criminal behavior, their implications are far-reaching. While AML and KYC are closely related,

there is a difference between AML and Know Your Customer (KYC) rules. AML operates on a broader level; they are the measures institutions take to prevent and combat money laundering, financing terrorism and other financial crimes. Banks use AML and KYC compliance to ensure the safety and security of the financial institutions, as well. This programme envisages confidence building among the participants, by improving their knowledge & skills in the area of KYC and AML. The programme takes the participants through a logical journey, right from getting conceptual clarity on various aspects of KYC and AML to understanding intricacies involving implications to safeguard the Banking Institutions.
